Dear Armadillas:

Oops! Where did June go? Our next meeting will be held at 12:00 p.m. on Tuesday, July 11, 1995 at Sorisso's which is located at 321 North Clark, on the north bank of the river, at the base of the Quaker Oats Building. Weather permitting, we will dine outdoors by the river. Please RSVP by 5:00 p.m., Monday, July 10 by calling me at 704-3759. For those of you who will be receiving this letter for the first time, I ask that you RSVP whether you can come or not. I do not want anyone who would like to attend to be left out, and due to the size of the group, it is getting difficult for me to call those who may have forgotten to RSVP.

Well, I have been so busy with my daughter's graduation (from high school), her party, and my youngest son's eighth grade graduation, that I have had little time to gather significant newsworthy information to pass on to you. As you all know by now, Susan Narimatsu (not "zu") has moved to Baker & McKenzie. She will be splitting her time between products defense and coverage. I hope she still has time to eat lunch with us. Ellyn Hoffman is still in a holding pattern. Her baby is not due until the end of July. Karen Golden reports that she has good days and bad days with "instant motherhood." She can tell you herself, since (as of this writing) she is planning to be at lunch on July 11.

I am pleased to report that Bridget did pass the California Bar. For your future reference, her new address is:

Bridget Kelly
Caron, Greenberg & Fitzgerald
One Market, Spear Street Tower
8th Floor
San Francisco, CA 94105
Ph: (415)541-3723
Fax: (415)541-3748

Unfortunately, Bridget has not fulfilled her obligations to the Armadillo Club. She and Mike did not return the Cosmo Compatability Survey to me. Nevertheless, Bridget still believes that she and Mike are compatible. Most disappointing, however, she did not even try the "lotion" that I searched so hard to find for her (at least that's what she says).

As some of you know, during the summer I rent a cottage on a lake in Southern Michigan. Over the past month I began to contemplate how truly fortunate I have been and decided that it was time to give of myself to society. Since I am involved in environmental coverage litigation, my husband owns an environmental engineering company, and my children are gainfully employed protecting an endangered species of butterfly in Northwest Indiana, I decided that I should become

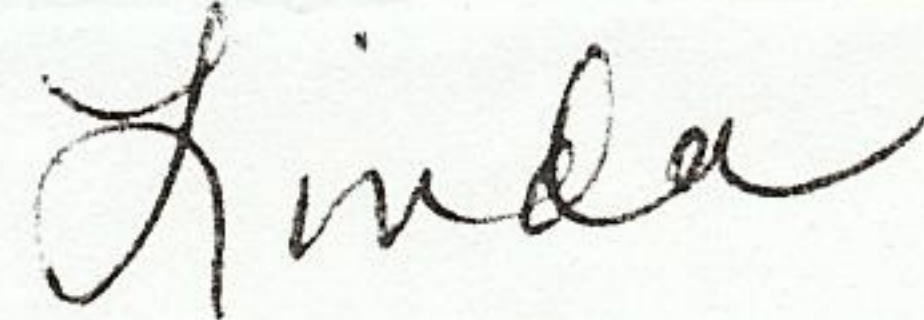

June 29, 1995

involved in a not-for-profit environmental activity. Therefore, last week I purchased two surface water sampling sleds and have been conducting scientific experiments involving centrifugal and gravitational forces, water quality sampling and temperature testing at the lake. It has been a very rewarding experience. Although I know that our unofficial by-laws prohibit us from undertaking charitable or otherwise worthwhile projects, I thought some of you might be interested in joining me in this one. Please let me know.¹

I hope to see you on Tuesday, July 11! Remember, new members must practice in the coverage area and like to eat and chat. **Please RSVP!**

Sincerely,

Linda A. Weaver

LAW/jw

¹ [Translation - I bought two very expensive wave runners and have been doing 360s in the middle of the lake -- the water is great, not too cold. You are all invited to bring your families, a guest, or several well-built, tanned, 20-25 year old beach volleyball players and join me on Sunday, August 6, 1995 for a day of skiing, knee-boarding, ski-boarding, wave running, tubing, volleyball, sunning, and eating. Let me know if you can come and I will give you a map. The lake is approximately two hours from downtown Chicago, about 10 miles north of Elkhart, Indiana.]
